

20. New Devices Settings

??ID??: 286 | ??: ??? | ????: Wed, May 16, 2018 5:19 PM

New Devices Settings

New Devices Settings

The new device tab in the settings page lets you view where you're currently logged in and your settings for login alerts.

Setup New Device Alerts

Login alerts will send you a notification whenever you login from a new browser/device.

1. Go to the [settings page](#) to begin setup of login alerts.
2. Click on New Devices settings.
3. Check if you want SMS or Email alerts

Devices You've Logged In From

If you don't recognize a device or IP, somebody may have gained unauthorized access to your account. You should:

- Remove the device below
- [Sign out from all other locations](#)
- [Change your password](#)
- Contact your BD at merchant_support@wish.com

These are all the devices you have logged in from. You won't get notified when logging in from the devices below.

| Device [?] | Last Used Time [?] | First Used Time [?] | IP Address [?] | Location [?] | Remove [?] |
|--|-----------------------------|------------------------------|-------------------------|-----------------------|---------------------|
| PC / Windows 7 / Chrome 57.0.2987 (current) | 2017-04-10 21:22:22 UTC | 2017-04-10 21:22:22 UTC | [REDACTED] | United States | |

4. Click "Update Login Alert Settings" to save your login alert settings

Review Your Recent Devices

You can check where you're currently logged in and which device/browsers you have used to login on merchant.wish.com.

1. Go to the [settings page](#) .

3. If you do not recognize a device, browser or location, you should:

- Remove the device you don't recognize
- Click "Sign Out of All Devices" to sign out other users
- Change your password
- Contact your BD
