

# 2017-11-09 How to remove HTTP content & external link & Active content from my listing?

??ID?: 68 | ?: ?? | ??: Wed, Jan 24, 2018 2:54 PM

For removing HTTP content:

Please log in to SoldEazy system, go to **Listing > Live Listing > Listing Maintenance**

Search for both active and hidden(out of stock) listings

These steps will also resolve your External link & Active content problems in SoldEasy Listing Template, but if you are not using SoldEasy listing description template, or somehow the template settings became invalid, you might want to go to eBay back end and remove those contents directly on eBay.

If your account is under limitation, or the listing is ending soon, the sync up job might not be entirely successful, please modify them in eBay back end.
