The screenshot shows a table of orders with columns for order number, system order number, product/SKU, price, currency, platform, status, date, and actions. A modal window titled '批單導出選項' (Batch Order Export Options) is open, showing a dropdown menu with '完整訂單 (預設格式)' (Full Order (Default Format)) and 'MS Excel 97/2000/XP (*.xls)' (MS Excel 97/2000/XP (*.xls)). Below the dropdown are '導出 Excel' (Export Excel) and '取消' (Cancel) buttons. Red boxes and numbers 1-4 highlight specific elements: 1 points to the '導出 Excel' button in the bottom toolbar, 2 points to the '導出 Excel' button in the modal, 3 points to the dropdown menu, and 4 points to the '導出 Excel' button in the modal.
